Report: Course Evaluation

Dear Prof. Karapandza,

this report contains the results of the automated evaluation of the course BSC Finance 1.

The global quality indicator displayed on the next page comprises the following two questionnaire dimensions:

Course (Scale width: 5)
Lecturer (Scale width: 5)

(please note: The question concerning the workload is scaled differently and is therefore not included in the indicator.)

The report's second part lists statistical information on all individual questions. The value 1 represents maximum quality, the value 5 minimum quality - from a student perspective. You may examine the results of the evaluation using the different statistical measures provided, such as averages, standard deviations, histograms etc. Finally, this report provides the student responses to the open-ended questions for further information.

We have singled out and highlighted the results of two crucial questions. Any value no higher than the current Business School average value is marked 'green', the following 25% of answers are marked 'yellow' and the remaining are marked 'red'.

Yours sincerely,

Thomas Erler
